CAREER OBJECTIVE

Results-driven IT professional with over one year of hands-on experience in Web Development, Cyber Security, and Cloud Computing. Proven ability to build production-level web applications using modern frontend technologies and to work with cloud infrastructure and security fundamentals. Seeking an opportunity in an IT-driven organization where I can contribute to development, security, and system operations.

PROFESSIONAL EXPERIENCE

Web Developer | Aug 2024 – Feb 2025
• Developed and maintained large-scale live production websites with modern UI/UX and performance optimization.
• Implemented responsive interfaces using HTML5, CSS3, Bootstrap, React.js, and JavaScript.
• Worked with Java and Python for application logic and integrations.
• Used Git and GitHub for version control and deployment.

Cyber Security & Cloud Computing Engineer | Jul 2025 – Dec 2025
• Worked in Linux and Unix environments executing system administration and security commands.
• Hands-on experience with cyber security fundamentals and vulnerability assessment.
• Deployed and managed AWS EC2 instances.
• Worked with Docker, Jenkins, and CI/CD pipeline fundamentals.

TECHNICAL SKILLS
